

DANIEL WILSON

Web Developer

PROFILE SUMMARY

I am a highly motivated and inspired developer looking for gainful employment in front-end web development and mobile app development. I have experience developing Wordpress sites and interactive web pages, but I aspire to learn more. I hope to join a team where creativity is encouraged, resourcefulness is rewarded, and all ideas are welcome! My long-term goals are to one day become a full-stack M.E.RN. developer!

ACHIEVEMENTS

- Completed certification courses for Javascript and front-end web development.
- Developed a website feature that significantly contributed to a client's increase in popularity, resulting in multiple industry awards.
